

**KING ETHELBERT SCHOOL**  
**SUMMER SCHOOL 2021**

<b>Summary of summer school activity</b>	
Dates of summer school	<b>9th-13th August 2021</b>
Total number of pupils in attendance  <i>Count of total number of pupils who attended at any point in the summer school</i>	<b>502</b>
Summary of activities  <i>Brief summary of the range of academic and enrichment activities that made up the Summer School provision</i>	<p>Each day had a personal development theme that was thread through the activities that the students did that day. This allowed us to celebrate and reward on these attributes rather than their success in the individual activities.</p> <p><b>Monday</b> Theme- Teambuilding and Leadership Leadership assembly</p> <p>Students carousel the day partaking in team building activities - Spaghetti marshmallow towers and outside team building with various scenarios they had to work together to solve. They also completed a food and culture project inside the school to explore different foods in different cultures and create a presentation to market food they had designed.</p> <p><b>Tuesday</b> Theme- English and Reading Organisation assembly</p> <p>Students spent the day developing their literacy skills through active approaches sessions and then working in small groups to solve a murder through a selection of SPAG based inquiry activities. They then had to write up their findings in a newspaper article format.</p> <p><b>Wednesday</b> Theme- Sport and Wellbeing Resilience Assembly</p> <p>Students took part in various sports, numeracy and wellbeing lessons and activities including; 5-a-side, dodgeball, trampolining, numeracy codebreakers scavenger hunt (to learn</p>

	<p>the school site better), meditation session and wellbeing lessons</p> <p><b>Thursday</b> Theme - Performing arts and confidence Communication assembly</p> <p>Students worked as three larger groups to create a performance piece for 'He Lives in You' from the Lion King 2. They either learnt choreography, singing or music for the piece. This was then recorded and shared with parents.</p> <p><b>Friday-</b> Theme- Science and Investigations Initiative Assembly</p> <p>Science investigation day involving learning and applying the different techniques involved in forensic collection of evidence for a classic 'whodunnit' crime.</p> <p>Then we ended the week with a Celebration and Rewards assembly where students were given certificates for the leadership, organisation, resilience, initiative and communication skills that were developed through each of the daily activities.</p>
